

"Life is easier at Bridgeway Pointe," said Paulette Morgan, the very first resident to use the DCi dialysis service. "I go down the hall, use the connector, finish dialysis by 9 a.m. and have the rest of the day to myself. There's no longer the hassle of getting to and from dialysis."

UC Health

Bridgeway Pointe:

The Only Assisted Living Facility Offering On-Site Dialysis Service in the Cincinnati Region

Bridgeway Pointe, a member of the UC Health system, is an assisted living community attached to Daniel Drake Center for Post-Acute Care, centrally located in Cincinnati (beside Interstate 75 and Ronald Reagan Highway). Bridgeway Pointe residents who require dialysis treatment simply walk down the hall to the Dialysis Clinic, Inc. (DCi) located inside Daniel Drake Center.

Life is easier at Bridgeway Pointe:

- Residents never need to leave the comfort of the building, with no need for coats, hats or umbrellas.
- Medication management is available (if needed). Relax and rest assured the right medications will be given at the right time.
- Select up to three meals daily; choose from our menu of healthy options.
- Dietitian support is available, if needed, to ensure a greater adherence to a renal diet. Learn to utilize Bridgeway Pointe's healthy menu options.
- Caring staff which includes a Registered Nurse 24/7.
- 24-hour emergency call pendant.
- You'll find physical, emotional, spiritual, mental and social support.
- Participate in gentle exercises, such as chair yoga and stretching classes, and have easy access to fitness equipment.
- Enjoy interactive arts, music and friendship.
- Engage in stimulating social activities including weekly field trips/outings, listening to live music and inspiring lectures.
- Pray, meditate or just feel at peace in our on-site, nondenominational chapel. Weekly services are offered.
- Enjoy our beautiful outdoor gardens.

The Daniel Drake Center for Post-Acute Care Connection

Bridgeway Pointe residents have easy access to Daniel Drake Center's supportive services located next door—just down the hall from the main dining room. Daniel Drake Center's services and amenities include: state-of-the-art physical therapy, occupational therapy and speech therapy, a warm therapy pool, a nationally-recognized wound care program, research opportunities, support groups, a gift shop, an ATM and a research library.

Dialysis Clinic, Inc. (DCi), a non-profit corporation, provides outpatient dialysis services at Daniel Drake Center.

DCi is supported by University of Cincinnati Physicians. If you are a patient of a non-UC Physician, your physician must apply for privileges to provide medical care at Daniel Drake Center and DCi, or you may choose to use one of the UC nephrologists on staff at Daniel Drake Center DCi Outpatient Clinic. If you would like additional information about the DCi Outpatient Clinic at Daniel Drake Center, please call (513) 281-0091, ext. 123.

"I enjoy the fact that it is a therapy pool. I try to go as often as possible."

– Craig, resident
