

## Bridgeway Pointe:

### The Only Assisted Living Facility offering On-Site Dialysis in the Cincinnati Region

Bridgeway Pointe is an assisted living community attached to Drake Center, centrally located in Cincinnati (just off I-75 and Ronald Reagan Highway). Bridgeway residents who need dialysis simply travel down the hall to the DCI Outpatient Unit located inside Drake Center.

*"Life is easier at Bridgeway Pointe," said Paulette Morgan, the very first resident to use the DCI dialysis services. "I go down the hall, use the connector, finish dialysis by 9 a.m. and have the rest of the day to myself. There's no longer the hassle of getting to and from dialysis."*

#### Life is easier at Bridgeway Pointe:

- Transportation is available to and from dialysis (if needed). Residents never need to leave the comforts of the building. No coats, no hats, no umbrellas...
- Medication management is available (if needed). Relax, and rest assured the right medications will be given at the right time.
- Select up to three meals daily; choose from our menu with healthy options.
- Dietician support is available if needed, to ensure a greater adherence with renal diet. Learn to utilize Bridgeway's healthy menu options.
- Caring staff which includes a Registered Nurse 24/7.
- 24-hour emergency pendant.

#### At Bridgeway, there is a big difference between just living and living Great Life Moments:

- You'll find physical, emotional, spiritual, mental, and social support.
- Participate in gentle exercises, such as water walking, stretching classes, gardening and fitness equipment.
- Enjoy interactive arts, music and friendship.
- Engage in stimulating social activities including weekly field trips/outings, live music and inspiring lectures.
- Pray, meditate or just be at peace in our on-site, non-denominational chapel. Weekly services.
- Enjoy our beautiful outdoor gardens.

## The Drake Center Connection:

Bridgeway residents have easy access to Drake's supportive services next door—right down the hall from our main dining room. Drake services include: state-of-the-art physical therapy, occupational therapy and speech therapy, a warm therapy pool, a Pain Relief Center, a nationally-recognized wound care program, research opportunities, support groups, a gift shop, an ATM/credit union and a research library.

**Dialysis Clinic, Inc. (DCI)**, a non-profit corporation, provides outpatient dialysis services at Drake Center.

DCI is supported by University of Cincinnati Physicians. If you are a patient of a non-UC Physician, your physician would need to receive privileges at Drake and DCI, or you may choose to use one of the UC nephrologists on staff at Drake DCI Outpatient Clinic. If you would like additional information about the DCI Outpatient Clinic at Drake, please call Chris Stevens, MSW, at (513) 281-0091, ext. 123.

*"As a recovering patient from spinal surgery, the pool has been a godsend to me. It is easily accessible, has great facilities, courteous personnel and many classes and open swims to assist you with your exercise program."*

—Phyllis Eveleigh

Be on your way to living **life's great moments** again.
