

What's Up

A Newsletter for the Associates of Daniel Drake Center for Post-Acute Care and Bridgeway Pointe

Welcome New Associates

Virginia Briggs, Respiratory
Michelle Duffy, EVS
Courtney Gilday, Pharmacy
Renee Goodman, Pharmacy
Lana Lester, LTAC 3 South
Stephanie Moore, Cardiac Rehab
April Morris, EVS
Wayneisha Rice, LTAC 3 South
LaShell Sanks, Christ Hospital LTAC
Jennifer Sherrell, LTAC 3 South
Karen Smith, SNF
Tamela Thomas, LTAC 3 North
Robert White, LTAC 3 South

Required TB Testing Continues

Annual TB screening is **required** for ALL Daniel Drake Center associates after August 1, even if TB screening was done in 2014 prior to August 1, 2014. Those who have tested positive in the past will need to fill out the TB screening questionnaire which can be obtained at annual screening, or associates can call Associate Health and Wellness at 585-6600 and have the form e-mailed or faxed.

All testing will be held in Conference Room C OR the Education Office; both are located on the 1st floor:

- Tuesday, August 26 1-4 p.m. (Education Office)
- Wednesday, August 27 10:30 a.m.–3 p.m. (Education Office)
- Wednesday, August 27 4-7 p.m. (Conference Room C)

Rev Up for YOUR Tune Up!

Don't Miss Next Benefits Fair

Are you due to schedule your 30, 40, or 50,000 mile maintenance visit? Join the UC Health Benefits Department on Tuesday, Sept. 2, Conference Rooms F & G on A Level, and see if it's time for you to check your engine. Come to the "starting line," circle the track and visit our pit stops. There will be some of your Favorites: Costco, Great Wolfe Lodge, US Bank Arena, the Reds and more. Come learn about the many UC Health benefits and discounts available to you.

Critical Need for Blood Donors

Blood Drive at DDC is Sept. 4

Hoxworth Blood Center is in critical need of blood donors. Please consider donating to the Daniel Drake Center Blood Drive, Sept. 4, 10 a.m. – Noon in the West Pavilion lot. Daniel Drake Center's goal is 11 donors. If you cannot make this date, you may donate at any neighborhood location.

Please tell the Hoxworth representative that you're donating blood on behalf of UC Health-Daniel Drake Center. All new donors will receive a Kroger gift card. All UC Health donors will be eligible to participate in a raffle for a GPS.

We know people donate blood primarily to save lives, but there are also extra incentives for rolling up your sleeves. You can sign up for the **Premier Donor Club**. If donors do not already have a Donor Portal account (which enables you to earn points in the Premier Donor Club), you can create an account within 48 hours of donating and earn your points. Create your account online at www.hoxworth.org/plus or by calling the Appointment Center at (513) 451-0910. The Premier Donor Club has a variety of gift cards for restaurants, movie theaters, bookstores, Hoxworth T-shirts and donations to charities. To schedule an appointment call Hoxworth at (513) 451-0910 or visit www.hoxworth.org/groups/drake. Walk-ins are welcome!

2014 United Way Campaign Coming Soon!

The United Way Campaign kicks off on Sept. 8 through Oct. 3. This year's Daniel Drake Center Chairs are Amy Schroyer, Interim Senior Site Executive and Brenda Ziegler, Administrative Director, LTAC at The Christ Hospital. If you would like to be on the Daniel Drake Center United Way Committee to help create fun events to raise money, please email the DrakeNewsRoom@UCHealth.com.

All departments are encouraged to create baskets for the main raffle. Look for department groupings soon! Baskets are due in Human Resources no later than Monday, Sept. 8 at 2 p.m. Please make sure you have an itemized list of what your basket contains as well as what it is worth.

Pledge cards will be distributed soon! Pledge early for early bird chances to win fabulous prizes and cash! Details coming soon!

Walking for Our ALS Patients – Join the Daniel Drake Team

With the phenomenal buzzing with the "Ice Bucket Challenge for ALS," did you know that there is a comprehensive ALS Clinic here at Daniel Drake Center with the specialists from the University of Cincinnati Neuroscience Institute? Amyotrophic Lateral Sclerosis (ALS), often referred to as "Lou Gehrig's Disease," is a progressive neurodegenerative disease that affects nerve cells in the brain and the spinal cord. Motor neurons reach from the brain to the spinal cord and from the spinal cord to the muscles throughout the body. How quickly the disease gets worse is different for everyone. Some people live with ALS for several years. But over time, ALS makes it hard to walk, speak, eat, swallow, and breathe. When the motor neurons die, the ability of the brain to initiate and control muscle movement is lost. With voluntary muscle action progressively affected, patients who have ALS gradually become more disabled or if in later stages of the disease may become totally paralyzed. These problems can lead to injury, illness, and eventually death. In most cases, death will occur within 3 to 5 years after symptoms begin, although some people do live for many years, even decades.

ALS is rare. Each year in the United States and most of the world, only 1 to 2 people out of 100,000 get ALS. Men get ALS slightly more often than women do. ALS can occur at any age, but it most often starts in middle-aged and older adults.

What is UC Health doing?

UC Health is working to maximize quality of life for this small population of patients and their families – and creating a foundation for future research studies. "The ALS Clinic provides an important service for our patients *and* families who face the challenge of ALS," says Robert Neel, MD, a neuromuscular disorders specialist and the clinic's director. "It allows us to care for the patient's physical, emotional, and logistical needs all in one visit, in one place."

During the visit, the patient and his or her family are seen by Dr. Neel, a social worker, and a series of therapists who assist with physical issues. The social worker addresses social issues, including home health care, preparing a power of attorney and inevitable end-of-life decisions.

The ALS Clinic is also establishing a framework for clinical trials, which will be supported by the Peck-Friedman Fund. The UC Neuroscience Institute's standing as a NINDS-funded (National Institute of Neurological Disorders and Stroke) Network for Excellence in Neuroscience Clinical Trials (NEXT) means that the ALS Clinic is poised to participate in future national clinical trials of ALS therapies. Potential studies, now pending, would not be possible without the clinic, Dr. Neel says.

How can you help?

On Sunday, Sept. 28, Dr. Neel and several others involved in the ALS clinic, have formed a team, UC Health–ALS Clinic, for the ALS Walk located at Winton Woods Metro Park- Harper Meadows starting at 11 a.m. It's a 2-mile walk to raise money for a cure for ALS. Please join! This will be a great opportunity for UC Health to get our name out there and to let people know about the UC Health ALS Clinic. To join the UC Health-ALS Clinic team, http://web.alsa.org/site/TR/Walks/CentralandSouthernOhio?team_id=304344&pg=team&fr_id=10115. To learn more about the clinic, or to schedule an appointment, call 418-2736.

ALS Ice Bucket Challenge

The Ice Bucket Challenge for ALS spread to Daniel Drake Center this week when former student Sarah Stephenson and Brad Carr, Team Leader, Inpatient & Outpatient Speech Pathology, took the ice bucket challenge. As of Thursday, August 21, the ALS Association has received \$41.8 million in donations compared to \$2.1 million during the same time period last year (July 29 to August 21). These donations have come from existing donors and 739,275 new donors to the Association.

Compliance Corner

Sarah is a newly hired coder with UC Health. She previously worked at another area hospital for several years. Based on Sarah's past experience, she believes her department may be improperly coding and billing a specific procedure, but she is not sure. Sarah does not want to put her new position in jeopardy by questioning an established billing practice, but she also is nervous about following the current protocol that is in place. Sarah is struggling with this dilemma. What should she do?

Since Sarah has a concern, she should report it. Sarah can report her concern in the following ways:

1. Talk with her supervisor
2. Contact a member of management;
3. Speak to HR
4. Contact a member of the Compliance Department directly
5. Call the Compliance Helpline at 1 (866) 585-8030

The Compliance Helpline is managed by a third party outside of UC Health. When associates call the Helpline they can choose to provide their name to the Helpline administrator or they can remain anonymous.

UC Health has a no-retaliation policy to protect those that report a compliance question or concern in good faith. It is important associates like Sarah ask questions when they are unsure or concerned because UC Health wants to do the right thing and improve processes. The following list provides examples of compliance issues that should be reported by associates:

- Potential violations of laws, regulations or rules
- Billing for services not rendered; upcoding (billing at a higher rate than that appropriate for the services performed); duplicate billing (billing more than once for the same service); improper unbundling of Medicare panels or profiles to increase the rate of reimbursement
- Offering or paying kickbacks, bribes, or rebates for patient referrals

It is the Compliance Department's job to prevent, detect and respond to any potential violations of laws, regulations and rules including those related to medical coding and billing. The Compliance Department investigates all reported matters in a timely manner and works with other departments as necessary to resolve associates' questions and concerns.

Compliance Department Contact Information
CorporateCompliance@UCHealth.com

Education Corner

Skills Fair 2014

This mandatory annual program is for all clinical associates hired on or before December 31, 2013 and will be held on August 26-29 and Sept. 3-5. Please contact your manager to set up your session. See attached flyer for additional information.

Please note: room locations have changed:

- August 26 – Conference Room E (behind Cafeteria)
- August 27 – Conference Room E (behind Cafeteria)
- August 28 – Conference Room G (A Level)
- August 29 – Conference Room G (A Level)
- Sept. 3 – Conference Room E (behind Cafeteria)
- Sept. 4 – Conference Room E (behind Cafeteria)
- Sept. 5 – Conference Room E (behind Cafeteria)

API Healthcare Upgrade

Training for upcoming upgrade of ReportXpress, TimePC and ActiveStaffer

The current API Healthcare solutions used at UC Health for time and attendance and for staffing and scheduling will be upgraded in September. The software upgrade will provide a single point of entry for users currently working with TimePC, ReportXpress and ActiveStaffer. The new interface has an enhanced intuitive design that will allow users to perform time entry and scheduling tasks with greater ease and efficiency. Training will be offered to associates currently using ReportXpress, TimePC, or ActiveStaffer. Classes will be held in the Computer Classroom on A Level. *There are also many other class dates/times at other UC Health facilities. This was communicated via email from UC Health.* Please contact UC Health Training & Development if you have any questions at training@uhealth.com or 585-6983.

Accu-chek Glucometer Re-Certification

Mandatory for all SNF, LTAC, BWP RNs and LPNs and LTAC PCAs

There is a 2-step process to follow:

- Part 1 – Completion of e-Learning course (to be completed on RITEKnowledge).
- Part 2 – Return demo with glucometer and controls and sign-off from authorized Glucometer Super User.

The deadline for completion of **BOTH** parts is **9/23/2014**. See attached document for further details.

DDC Welcomes New Outpatient Clinic Physicians!

Vijaya Reddy, MD, is a board certified geriatrician and internist for UC Health Women's Center in West Chester and also does geriatric assessments at Daniel Drake Center. Dr. Reddy is scheduled in the Outpatient Physician Office on Fridays. She has more than six years of experience in geriatric medicine. She completed her Residency Training from Michigan State University/ Hurley Medical Center/Flint, Michigan. She also completed a clinical fellowship in geriatrics from Indiana University School Of Medicine. Her passion in geriatrics stemmed from her own personal experiences of family members going through complex medical conditions and decisions around them. She also has participated in a research study involving Effectiveness of Dementia Treatment.

Ralph Laraiso, DO, is board certified in Physical Medicine & Rehabilitation (PM&R). Dr. Laraiso is scheduled in Daniel Drake Center's Outpatient Physician Office on Wednesdays and Thursdays. Graduated from Downstate Medical Center physical Therapy Program 1977, practiced from 1977 to 1982 then attended Nova Southeastern College of Osteopathic Medicine. He completed his PM&R residency at St. Francis Medical Center in Pittsburgh, PA. He served in various Physical Medicine & Rehabilitation roles throughout his career including the faculty of SUNY at Buffalo until 2009 and the Brain & Spine Center in Williamsville, NY; and most recently returned to academia at UC's Physical Medicine & Rehabilitation departments/UC Physicians. He is also the Medical Director at HealthSouth at the Daniel Drake Center location.

Kelly Crawford, MD, is board certified in Physical Medicine & Rehabilitation (PM&R). Dr. Crawford is scheduled in Daniel Drake Center's Outpatient Physician Office Mondays, Wednesdays & Thursdays. She is also an Associate Residency Program Director and Director of the Traumatic Brain Injury Program Director at HealthSouth at the Daniel Drake Center location. She graduated from the Boonshoft School of Medicine at Wright State University in 2008 then completed her PM&R residency at the University of Cincinnati. She completed her fellowship in traumatic brain injury and concussion at the University of Pittsburgh Medical Center in 2013.

Angela Stillwagon, DO (no photo available), is board certified in Physical Medicine & Rehabilitation (PM&R). Dr. Stillwagon is scheduled in Daniel Drake Center's Outpatient Physician Office on Tuesdays. She graduated from Ohio University of Osteopathic Medicine in 2005 and completed her PM&R residency at University of Cincinnati in 2009. Board certified in Physical Medicine and Rehabilitation in 2010 then joined The Spine Center at South Bend Orthopedics in Mishawaka, IN from 2012-2014. She has additional training in acupuncture, epidural steroid injections, SI injections and US guided injections. Patient focus is on musculoskeletal disorders, back pain, non surgical orthopedic problems.

Outpatient Clinic Physicians Cont.

Michael A. Watts, MD, specializes in spinal cord rehabilitation and will see patients in Daniel Drake Center's Outpatient Physician Office on Wednesdays. He earned his Doctorate of Medicine from the University of Wisconsin – Madison. He completed his PM&R Residency at the University of Pittsburgh Medical Center. For the last seventeen years,

Dr. Watts practiced rehabilitation medicine at Miami Valley Hospital in Dayton, OH. He has specialized in spinal cord injury rehabilitation but also has interests in multiple trauma, orthopedic rehabilitation and orthotic management. He joined the UCP faculty at University of Cincinnati in the Division of PM&R in July of 2014. He is the Program Director of Spinal Cord Injury Rehabilitation for HealthSouth at Daniel Drake Center.

Look for more Outpatient Clinic Physicians in upcoming *What's Up* issues!

Teamwork in Outpatient Clinic Results Positive Patient/Family Experience

Teamwork played a huge role in this mother's experience in the Outpatient Clinic as expressed in the following excerpt from a letter sent to Dr. Jessica Colyer, DDC Outpatient PM&R Clinic.

*"In spite of the your office schedule and being so very busy, all of you bent over backwards to help us! I cannot thank you enough for all of your efforts and graciousness. In the midst of being so busy, **Pam (Givens)**, you did everything you could to get the pre-auth from my son's insurance company, and succeeded, never once making my son and I feel bad for the inconvenience. You made it seem like it was no big deal. **Kris (Goldfuss)**, thank you for keeping my son and I informed on the progress of the pre-auth and then making us feel like we were a planned visit, and then you were so very cheerful and informative. And **Dr. (Jessica) Colyer**, I saw you flying between offices as my son and I were escorted to the exam room. Thank you for taking the time to evaluate him...in spite of being overwhelmingly busy.*

Thank you, thank you, thank you for being so accommodating & caring. The three of you make an excellent role model for what makes an excellent medical team."

Pictured l-r: Jessica Colyer, MD, Kristine Goldfuss, and Pam Givens

UC Health to Recognize Outstanding Associate and Manager

Last year, a new system-wide awards program was introduced with the purpose of formally recognizing associates who had made significant contributions to the UC Health organization. The UC Health **Outstanding Associate of the Year Award** and **Outstanding Manager of the Year Award** have been created to highlight associates and managers making exceptional contributions to their department, division or the health system. The new program highlights individuals who have demonstrated enthusiastic initiative, outstanding performance, and service excellence to create process improvements as well as expand upon teamwork and collaboration to benefit quality and service. One associate and one manager (defined as supervisors and above) will be selected annually, based on the award's specific criteria. In addition to being spotlighted within *Connected*, winners will also receive a trophy and a cash prize.

All full-time and part-time UC Health associates who have been employed with the health system for at least one consecutive year and who remain in good standing are eligible for this award. Vice president-level associates and above are not eligible.

Nominations will be accepted beginning Sept. 1. Nomination forms and criteria for both awards are available on the UC Health SharePoint intranet. All nominations will be reviewed by the UC Health Reward & Recognition Council to determine finalists. The UC Health Operations Council will choose a winner for each award from the pool of finalists in December, with winners announced in February 2014.

Understanding Care of Burn Patients --Education for Staff

All associates and disciplines are welcome to attend the "Understanding Care of Burn Patients Burn Education for Staff." Speaker Greg Van Winkle, RN, UCMC Burn Unit, will be sharing his expertise in this care in regards to caring for these complex patients. All sessions will cover the same material. You do not need to pre-register, and can choose from the following dates and times:

September 10	1-2:30 p.m.	Conf. Rm. D (behind Cafeteria)
September 11	1-2:30 p.m.	Conf. Rm. F (A Level)
September 12	1-2:30 p.m.	Conf. Rm. F (A Level)

Oct. 1

Trauma Nurse Symposium: The Continuum of Care, 7:30 a.m. – 12:45 p.m. held at the Daniel Drake Center Conference Center, Rooms F & G. All nurses in the acute hospital setting, long-term acute care units, rehabilitation units, skilled nursing facilities and home health would benefit from this program. The purpose of this course is to help nurses become more familiar with common traumatic injuries and the treatment required to care for the trauma patient. This CE activity 4.0 contact hours is provided by University of Cincinnati Medical Center. University of Cincinnati Medical Center is approved as a provider of continuing education by the Ohio Board of Nursing through the OBN Approver Unit at UC Health (OBN-007-92). Cost is \$20 (prior to 9/24); \$25 (after 9.24). See attached flyer for more details.

Oct. 15

Mobile Diagnostics Van, West Pavilion lot, 9 a.m. – 3 p.m.

What's Up is published bi-weekly by the Public Relations & Marketing Department for associates and volunteers of Daniel Drake Center and Bridgeway Pointe. The goal of *What's Up* is to offer the most up-to-date information and hospital news pertinent to the Daniel Drake Center-UC Health work experience. Send your news items or suggestions to: DrakeNewsRoom@UCHealth.com or call Michelle Cordy, Consultant, (513) 418-2771.

UC Health & UC are taking over the Zoo - Again!

**Save the date for UC at the Zoo!
Saturday, Sept. 6, 2014 from 4:30pm – 8:30pm**

Buy your tickets now for a fun-filled evening of entertainment and animals at our exclusive event at the Cincinnati Zoo and Botanical Gardens!

Festivities will take place from 4:30 – 8:30 p.m. We'll have live music, kid-friendly and student activities including face painting and a drum building activity. Look for Lucy the Bearcat in her nursery at the Children's Zoo. Always a favorite, the UC Pep Band and Cheerleaders will lead a parade around the Zoo at 5pm. We'll also have scavenger hunts and prizes for the kids and random animal encounters scheduled throughout the Zoo. Gorilla, Elephant, Giraffe, and Penguin Keepers will offer talks on our favorite animals, and don't miss the Cheetah Encounter Show! Photo booths will be setup at various locations throughout the Zoo so you can Be the Bearcat! - or take a selfie or friends and family photo the Bearcat, a UC football player or cheerleader (or at least their likeness)!

Tickets are just \$7 per person (children under 2 are free) – and your ticket includes free parking! Children age 12 and under will enjoy one complimentary Carousel ride (additional rides are \$2.00). Additional discounts include Train rides for \$3.00 per ride and the 4-D theater will be showing "Rio and The Great Salmon Run" at \$4.00 per show. Receive a 20% discount on food and soft drinks when you present your UC at the Zoo ticket (discount does not apply to alcohol).

Please note this is a private event, so Zoo memberships do not apply.

Purchase your tickets in advance to avoid long lines at the entrance gates! To purchase tickets:

Glucometer Re-Certification 2014

Mandatory for All Nurses and LTAC PCAs

Who: All SNF, LTAC, BWP RNs and LPNs; and LTAC PCAs

What: Re-certification for Inform II Glucometers

Process: There is a 2-step process to follow.

1. The e-learning course in RITEKnowledge has been assigned to you. Please complete this course, and then **print your Certificate/Diploma.**  (see illustration below)
2. Take your Certificate/Diploma to your charge nurse, Super User, educator, or a lab associate to work with you on the demonstration with controls. Sign the Certificate/Diploma anywhere on the document, and ask that person to sign and date it, too. Give document to the Lab Department by **9/23/2014.**

This will satisfy your annual re-certification for the Inform II glucometer. If both steps of this process are not completed, a system lockout will prevent use.

PAID
CINCINNATI, OH
PERMIT #1732

Course Overview

This program offers an educational opportunity for nurses in the hospital, long term acute care, rehabilitation, skilled nursing and home setting.

Course Topics

Trauma Kinetics

Kelly Besl RN, BSN, Trauma PI Coordinator

Describe the biomechanics of common mechanisms of traumatic injury.

Head Trauma

Holly Vandergriff RN, BSN, Neuro Trauma Nurse Clinician

Define traumatic brain injuries and review procedures and nursing interventions for the traumatic brain injured patient.

Care of the Surgical Abdomen

Elizabeth Kramer RN, BSN, Trauma Nurse Clinician

Discuss abdominal trauma, review abdominal diagnostic tools and procedures, nursing intervention and management of the surgical abdomen.

Complications of Orthopaedic Injuries

*Mary Beth Ludwig, RN, BSN, CNOR,
Orthopaedic Nurse Clinician*

Discuss orthopaedic trauma complications and nursing interventions.

Trauma Case Studies

*Jennifer Lemmink RN, MSN, CCRN,
Trauma Clinical Nurse Specialist*

Follow a trauma patient through their hospital course from emergency room to discharge.

Course Objective

The purpose of this course is to help nurses become more familiar with common traumatic injuries and the treatment required to care for the trauma patient.
