# AIR CARE & MOBILE CARE

Time matters in critical illness and injury. Our new Walton, Ky. base will allow us to bring world class medicine and care of an academic medical center to our patients faster and safely deliver them to University of Cincinnati Medical Center or surrounding hospitals.

Meet and greet with our team! The flight crew always consists of an Emergency Medicine Physician or an Advanced Practice Nurse and a highly trained flight nurse. With this configuration, and your partnership, our patients are provided with the best chance for survival and optimal outcomes.

UC Health's newest hanger location is conveniently located near the Walton Fire Department, which will also be open for tours during the Grand Opening.
